## Subject: Blue Bird® Brake Switch Interface Recall

Bendix Commercial Vehicle Systems LLC (Bendix) is conducting a voluntary safety recall campaign, **Recall No.: 22E033**, involving the brake switch interface.

### **Problem Description:**

Bendix has determined that the brake pedal, manufactured by a Bendix sub-supplier, may have been manufactured out of specification, thereby causing a potential defect. The clevis pin hole on the brake pedal may be undersized, thereby creating a binding condition that may impede the proper functionality of the brake switch. *Figure 1* shows the affected clevis pin hole on the brake pedal being modified to remedy the problem.

**Figure 1 – Brake Pedal Clevis Pin Hole**

### **Vehicles Affected:**

This recall includes all Blue Bird® C-Chassis school buses equipped with the following:

- Cummins engine; *AND*
- Non-adjustable pedals; *AND*
- Hydraulic brakes; *AND*
- A specified Vehicle Identification Number (VIN). Owners of vehicles meeting all parameters above will be contacted.

This action **does not** affect Blue Bird C-Chassis school buses outside of these parameters.

### **What You Need To Do:**

**No action is required by you at this time.** If your vehicle is determined to be affected, you will receive an official notification on how to proceed.

### **Modifying an Impacted Brake Switch Interface:**

For instructions on replacing the brake switch interface, reference *S-1685, Blue Bird® Brake Switch Interface Service Kit*, on [b2bendix.com](http://b2bendix.com). **NOTE:** It is not necessary to return any replaced parts that are included in the Blue Bird Brake Switch Interface Service Kit.

### **Additional Assistance:**

For additional assistance on this voluntary recall, email [BBSwitch22@bendix.com](mailto:BBSwitch22@bendix.com) or contact the Bendix Tech Team by phone at 1-800-AIR-BRAKE (1-800-247-2725), option 2. Bendix Tech Team representatives are available Monday through Thursday, 8:00 a.m. – 6:00 p.m., and Friday, 8:00 a.m. – 5:00 p.m. ET.
