FOR IMMEDIATE RELEASE

BENDIX'S BOWLING GREEN, KENTUCKY, MANUFACTURING PLANT EARNS
GOVERNOR'S SAFETY AND HEALTH AWARD

Company and Its Employees Recognized by State for Outstanding Safety Performance

AVON, Ohio – Sept. 29, 2026 – The Bowling Green, Kentucky, manufacturing operation of Bendix Commercial Vehicle Systems LLC (Bendix) has received the Governor's Safety and Health Award, which provides special recognition for outstanding safety and health performance. The award is administered by KYSAFE, part of Kentucky's Division of OSH (Occupational Safety and Health) Education and Training.

A representative of the state traveled to the Bowling Green facility on Aug. 26 to present the award. Plant leadership led the representative on a tour of the site and gave out snow cones to all employees.

The Governor's Safety and Health Award is given to employers and their employees, who together have achieved the minimum required number of hours worked without experiencing a lost-time injury or illness at their establishment. The required number of hours depends on the number of employees. Bendix's 795,508 hours without a lost-time injury exceeds the 750,000 hours required for the employee range of 251-375.

Bendix met the award's other criteria as well: The establishment must also be free of any egregious safety or health violations for a period of 24 months beginning with the date of issuance of the citation and any pending discrimination complaint or any uncorrected or contested serious violations.

"We're pleased that our safety efforts in Bowling Green have earned the respected distinction of a Governor's Safety and Health Award," said Ed Casper, Bendix safety and

security director. "Everybody at the plant shares in this recognition. A strong safety culture doesn't happen by chance – it's built through everyday actions."

The Bowling Green manufacturing operation, which opened in 2007, employs more than 300 people and produces the full lineup of commercially available Bendix® brand foundation drum and air disc brake solutions.

About Bendix Commercial Vehicle Systems LLC

Bendix Commercial Vehicle Systems, a member of Knorr-Bremse, develops and supplies leading-edge active safety technologies, energy management solutions, and air brake charging and control systems and components under the Bendix® brand name for medium- and heavy-duty trucks, tractors, trailers, buses, and other commercial vehicles throughout North America. An industry pioneer, Bendix is driven to deliver the best solutions for improved vehicle safety, performance, and overall operating cost.
